

ELECTIONS 2007 at the PEOPLES CONGRESS

The world Citizens are voting:

Germ of violence generated by the fact that the majority of people live in extreme poverty while a few of them live in abundance ; atmospheric and water pollution, the monopolizing and wasting of fossil energy resources and rare raw materials, the demographic explosion, monetary disorders, the armament race are all planetary problems which go beyond States competency .

Facing these problems, the international organisations, showing very often their inabilities, incapables of achieving their best intentions, impaired by the national and private interests are unable to defend universal peace and the cause of humanity.

Confronted to this impotence of the states and their international institutions we, people of the world must organise ourselves to make our voices heard, and show our willingness to achieve the elaboration of a pacific and civilised world

The people's Congress has precisely this mission (see page 2)

The People's Congress is not a World Parliament nor a World Constituent Assembly but a preparation democratic step. The people's Congress does not issue universal laws but prepares the way to a world democracy.

It is the emerging voice of the world people besides and complementary to numerous organisations of the civil society that work in the same direction

A renovated Peoples Congress

Created by successive elections between 1969 and 1998 the People's Congress had to face several problems due to its own structure

That is why in 2003 during the Plenary Session the People's Congress was deeply reorganised in its mode of existence and functioning .That is why you are asked to elected the first third of the People's Congress

You will have to designate 15 new delegates for a 9 years mandate

The candidates that are presented to you in this pages have answered the call for candidacy published in several newspapers . They are all world citizens and have been approved by the Election Control Commission. They all are fine candidates . Nevertheless they are all from different origin, experiences, ways of thinking and orientations

You will have decide about your choice!

The new people's Congress will be what you will decide it to be and the legitimacy and efficiency that you will give to it .That is why it is important to make your choice and to express it .It is your citizen duty and it is a necessity for world democracy's progress

*The Elections Control Commission
of the People's Congress
June 15,2007*

How to vote?

You have received

In the big white envelop:

- ⇒ This 12 pages " **candidate booklet**", including 2 pages of explanations and 10 pages for the presentation of the candidates. There are twenty candidates presented, each one on a half page
- ⇒ a standard format white envelop called "reply paid" usable in every country of the world. (Universal Postal Union regulations)
- ⇒ A smaller green envelop
- ⇒ A ballot bulletin with the 20 candidate's names

You have to choose 15 names only

You choose 15 names maximum among the 20 candidates presented

T You ear mark your choices on the bulletin putting a cross in the little squares facing the candidate's name.

You send your ballot bulletin

1. Fold the bulletin and put it in the little green envelop.
2. Put this green envelop in the white one named "reply paid"
3. Unstuck the protective band from the white envelops and close it.
4. Mail this envelop **without putting stamps**

Please note:

- a) The white "reply paid" envelops will be open only on September 22,2007, day of the counting of the votes
- b) To be valid, your bulletin must show only crosses that express your choice. **Maximum 15 crosses.** No other writing should be authorized.
- c) The green envelop should contain only the voting bulletin. However, with the green envelop you can add in the "reply paid" envelop, mail or money that do not exceed 20 grams
- d) The letters from A to T are points of references given to the candidates according to the dates of reception of their files by the Election Control Commission. This letters are meant to simplify the counting procedures .

Do not wait !

The creations of the People's Congress:

The Peoples Congress Mission:

- Ø Establish the inventory of all the needs common to human kind
- Ø Proclaim the necessity of Public World Institutions able to satisfy this needs
- Ø Define:
 1. The domains where it is necessary to have Public World Institutions
 2. The transfers of skills that will have to be accepted in favour of World Institutions by the Nation States
 3. The necessary procedures for the creation of Public World Institutions
 4. The structures of the supra-national world federal authority to be created
- Ø Express in World Declarations the opinion and the choices of the people of the world about the events concerning human kind's fate
- Ø Intervene with governments or international authorities on current world problems
- Ø Study the expert's reports on world constitution projects and give one's opinion
- Ø Present a draft proposal of a world federal constitution to the governments and to the national parliaments as well as to various international authorities
- Ø Take all the necessary initiatives to start a democratic world parliament including a chamber for the people of the world
- Ø Look for collaboration and the creation of culture, information and education organisations to facilitate the awareness of universal solidarity.

Ä **Institute of "Mundialist" Studies** (IEM) (1977). Research, cultural and training organization oriented towards a world point of view
=> IEM-AIGS, rue Vert Vinave 60, 4041 VOTTEM (Belgique)

Ä **World Press Agency** (AMIP) (1980)
It diffuses regularly or occasionally to the press the People's Congress information or an editorial about a "mundialist" view point about a current event

Ä **World Community against Hunger:** (WCH) (1982)

Ä **Registration Legal Services:** (2006)
Established to register by-laws, engagements and contracts of trans national organisations willing to be legalised under the world civil law.
=> <http://www.recim.org/civil/>

Meetings, study groups, declarations, view points, collaboration with all the organisations and groups of organisations caring for the future of humanity and the planet, protection of minorities, respect of human rights, exchanges with states and international institutions, assertion of world law, creation of new institutions...
All of this will be undertaken by the Peoples Congress with you and in your name
Many things have already been accomplished but a lot remains to be achieved.

On the financial side:

The election to the Peoples' Congress is free

The right to vote does not require any subscription or contribution. Each elector will get ballot paper and an envelop to send it back free of charges even abroad. No stamps are needed.

However nothing is really free..., paper, envelops, printing, mailing, cost of the return envelops ..all this together cost around 10.000 €

... And we plan to do the same elections in 2010 and 2013 !

... We will also need a budget for the delegates: cost of meetings, reports, necessary interventions with the medias, the states and the international institutions.

More than ever the World Citizen Registry invites you all to send your voluntary contribution equivalent to a half day of salary, in order to help our organisation to fulfil her role effectively, We can send your contributions :

? Or to your Registration Center of World Citizens

? Or to : WORLD CITIZENS : CCP PARIS 2848 94 Y

IBAN : FR 46 30041 00001 0284894Y020 02 - Bank Identifier Code : PSSTFRPPPAR

? Or by **PayPal** from the site : www.recim.org/cdm/

• We accept checks in euros issued in French banks

• For other countries and other moneys please send international mailing or a bank transfer using the IBAN above

• We accept bank notes placed between coloured paper sheets and in the white "reply" envelop but not in the election green envelop.

Address : Coogee (Australia)
@ : C.Hamer@unsw.edu.au

I am convinced of the need for a global parliament to deal with the enormous global problems that confront humanity. I have campaigned against nuclear weapons, and founded the World Citizens Association of Australia in order to further these objectives.

Declaration of intention

I am convinced that some sort of global parliament is necessary in order to deal with the enormous global problems that confront humanity, such as : elimination of weapons of mass destruction, combating global warming and other threats to the environment, preserving human rights, and eliminating epidemic disease, starvation and absolute poverty in the Third World.

I am committed to working towards this end, and have established the World Citizens Association of

Australia to pursue them. We hope to work towards :

- Educating people on these issues ;
- Recruiting more members to the cause ;
- Lobbying politicians on these issues ;
- Working together with other mundialist associations around the globe, such as the Peoples Congress, towards these ends.

More specifically, we are lobbying for the development in our region of a Pacific Islands Community out of the present Pacific Islands Forum ; and on the global scale, I would like to see NATO restructured as a general security community of democratic nations, with new members such as Japan, Australia and New Zealand in the Pacific, eventually open to all stable, democratic nations as a peacekeeping organization. It could then become the basis for the system of global governance we are looking for.

Presentation

- Prezident of the Accra- Registration Center of World Citizens
- Member of the Administrative Council.of the World Citizens Registry

Program

I registered as a world citizen on 30 th October 1975 and since then, I have become more conscious of my responsibilities towards the world community than before.

For the first time,I have benefited from my membership as a world citizen by participating in the first mundialist studies seminar in Bohicon.(Benin)

My experiences as a result of this seminar are many and fruitful.

Now, I understand that the United Nations is ineffective in terms of the world's problems and the

only solution for its well being is when one passes by elections conducted by the Peoples Congress.

I am a candidate to the Peoples Congress so that I can be given the necessary mandate to militate by the big governmental organizations for the success of the Peoples Congress projects.

Gerhard HIRSCHMANN

C

Born in 1939
World Citizen Card: 102.591
Lives in Magdeburg (Germany)
@ : Hirschmann(email.de)

Biography:

- 1993 Mrs Charpentier and Grzyb, world citizens inform Gerhard about the purposes of world citizenship
- 2002 Decision of working towards awareness of world citizenship; Registration as a new world citizen in Paris and registration at the World Citizen Association (AWC)
- 2004 Beginning to the work with the German branch of AWC, Magdeburg Centre
- 2006 Director of AWC for Esperanto, member of the council and director of the AWC German branch

Summary of the declaration of intention:

I am aware of the important goals of the world citizens : creation of long lasting peace and preservation of life and world resources for future generation and I will work for:

The awakening of human consciousness, the reinforcement of work and cooperation between militant world citizens, information on very urgent actions to be taken in order to inform governments, parliaments, institutions and organisations and I will also work to establish a parliament of the people of earth with

sovereign competencies for peace and environment .

Declaration of intentions:

I reached the end of my professional life .Before I was for 10 years real estate sales director and before responsible for the commercial sector for telecommunication systems

Professionally, I am a telecommunication engineer .I live in Magdeburg in Germany and since 4 years I live alone; my two children left home and live one in Berlin and the other one in Bad Gastein in Austria

During 15 years, I worked with an association of entrepreneurs in Germany and I am still continuing to do so .But in the mean time I work especially with the world citizens and Esperanto.

I have the intention to reinforce my involvement in this two matters and to brighten my perspectives and the possibilities of international relationships in order to get more influence on some organisations, parliaments etc. The mandate of delegate to the People's Congress might facilitate things

I feel healthy, I have a lot of ideas for our activities and I am ready to participate to the People's Congress .

Biography Summary

I was born Jewish and I became a physician.

My professional activity as a private psychiatrist is devoted to help foreigners, illegally installed in my country to achieve their durable integration with dignity especially those who have been victims of psychological disorders after having suffered from military or civil conflicts that happen in the world . (ex: USSR, Mauritania, Chad, Rwanda, Cameroon, Angola, Bangladesh, Turkey, Iraq and Syria)

“Do you want to do something good for those that death has encountered ? Women or men, leave them alone and accomplish their hopes”

Veronique's hopes were to always take the side of the foreigners because the moral quality of society can be measured this way.

A society will treat in 10, 20 or 30 years its own children the way it treats foreigners to day

Declaration of Intention

I want to be a candidate because I believe in the universality of the human condition through my work as a psychiatrist

The construction of society, politics, solidarity and fraternity is difficult to learn, often problematic and if you stumble, it can get you in peril

It is difficult not to answer to violence in using violence, be individually or collectively. Difficult but indispensable

I am born Jewish with all its cultural richness and the capacities of community and nationalistic withdrawal (around the defence of the Israel State interests)

And I usually tell that I am a physician with all its universal dimension that it imposes and it gives rise to

Pain has no colour and does not know any border

I devote my life to welcome foreigners to help their integration in my country ..France where hospitality is disappearing

I am doing it with more and more conviction and fervour since Véronique my beloved wife was killed by one of my patients during a craziness attack. Her family and ours are the victims of this drama.

Joël LUGUERN

E

Born in 1946

Lives in Issy les Moulineaux (France)

Biography summary

I am a world citizen since March 1967 and a militant in many humanistic and ecologist organisations (Survival International, Sortir du Nucléaire etc.)

- September 1969: I left for South Vietnam as an overseas development worker and then I stayed as an independent journalist until 1973
- Since 1984 in charge of South East Asia region for a French humanitarian and human rights foundation (state approved). I have accomplished numerous humanitarian missions in this region of the world, especially in Cambodia and Vietnam
- Writer and Editor of the quarterly bulletin for the French world Citizen Bulletin since 1997
- Secretary general of the French Registration Centre from June 2002 to Mai 2006
- Again Secretary General starting April 2007 until to day
- Author of many books about Vietnam

Declaration of Intentions

If I am elected I will ask the people's Congress to make a decision on the 9 following questions :

1. Esperanto compulsory for the UN employees and the UN

Agencies (UNESCO, UNFPA, UNDP etc.) and the blue berets

2. Debates on clandestine international migrations and all the problems linked to this world phenomena
3. Creation of a Water World Authority, responsible of the use , the management and the distribution of water and all the marine and under sea resources
4. Ban on the construction of any new nuclear power station in the world as long as the problem of nuclear waste has not been solved . Ban on any outside growing of genetically modified plants
5. Ban on all the "tax heavens ".
6. Establishment of a tax on the transport of comfort and luxury goods and on international financial transactions
7. Instauration of quotas on oil products calculated in proportion of the population. Instauration of a "green tax "that applies if the quotas are exceeded
8. Instauration of an important tax on airline tickets . This taxes will be used to support a respectful development of the planet
9. Debate on the "grey ecology" meaning "pollutions of distances, life size, proportions and world contractions whose main engine is speed"

Rob WHEELER

F

Born in 1950

Declaration of intention summary

I have been an active supporter of the need for a democratic and participatory means of global governance and an effective rule of international law for the past 12 years. I have participated actively in various UN processes and efforts to reform the United Nations over the past decade. I am prepared to vigorously support the efforts of the Peoples Congress to establish a World Parliament, enact a World Constitution, develop a Participatory System of Global Governance, and create an effective International Rule of Law.

Biography

I have worked actively for a World Parliament or Global Peoples Assembly since 1994, when I attended the Preparatory Conference for the United Peoples Assembly that was held in San Francisco as a part of the UN's 50th Anniversary events in 1995. I subsequently joined the Steering Committee of the Action Committee for Global Change that was championing the effort for a Global Peoples Assembly. Then in 1998 I became the Coordinator of the Millennium Peoples Assembly Network (MPAN) and was selected to serve on the Executive Committee of the UN Millennium NGO Forum.

Then in 2002 I co-coordinated an e-forum on Establishing a World Parliament for the 21st Century and on the Architecture of Global Governance which was associated with the Alliance for a Responsible, Plural, and United World. This was conducted in English, Spanish, and French and continued for several years with more than 400 participants.

You can I then participated in the World Social Forums in Mumbai, India and Porto Alegre, Brazil where we presented quite a number of workshops on World Democracy and began to organize a Coalition for a

World Parliament and Global Democracy. In fact I am presently serving as the Chair of the International Steering Committee and I am on the Executive Committee for the WMGD.

Declaration of intention:

First I would participate actively in the intended Functions of Peoples' Congress and provide leadership as needed. This would thus include:

Helping to develop the list of those needs basic to all of humanity - which I am quite familiar with due to my work on the Steering Committee for the Initiative on Access to Basic Services for All, the UN Commission on Sustainable Development, the Millennium Forum, the World Social Forum, and other such processes. The development of such a listing would also be extremely useful for the development of the World Movement for Global Democracy and its Global Action Campaign to solve our primary global problems. Thus we could work cooperatively together on developing this.

Proclaiming the necessity for Global Institutions, which we can also do through the World Movement for Global Democracy, the World Unity Days, and the other UN and civil society processes that I have been a part of for the past ten years, etc.

Determining in which fields the intervention of a supranational authority is urgently needed; how a transfer of authority could be accepted and agreed upon by nation states; how such global institutions could be democratically formed; and what the structures, principles, procedures, and processes for such global institutions could be.

Assisting in the development of a strategy for reaching intergovernmental agreement and acceptance of a World Constitution, along with civil society and popular support for it.

In addition, I would provide leadership in developing a strategy for establishing new institutions of global governance and an international rule of law, building upon the many proposals and initiatives that are already supported by the world democracy movement. The following step would then be to develop a cooperative and coordinated campaign in order to carry out and implement the strategy plan.

Marie-Louise DUBOIN

G

Born in 1931
World Citizen Card number : 169.134
Address :Le Vesinet (France)
@ : ml.duboin()wanadoo.fr

Biography summary

Retired University Professor .My last research was about aurora physics.

Since 1976, I am the chief editor of the monthly newspaper about socio- economic reflections "La Grande Relève" that promotes an economy democratically organized ,without borders between the people nor exclusion and makes you aware that the first human right to be respected is to have enough to live on .

In the same line of non violent action, I published several hundred articles, organized numerous conferences and published 2 books .The last one was published in April 2007 and is called "But where does the money go ?"

Declaration of intention

I think that it should be important for every world citizen that a serious assessment of the free market economy that started in 1980, be undertaken and compare what had been planned and what has really happen

Thousands of human being driven away by poverty, leaving on boats and many km of walls erected around rich countries to protect them

The WTO has its own experts that the poor countries cannot afford. The free flow of money that could allow investors to help the developing countries and bring to them of prosperity has above

all allowed the exploitation of their resources.

Poverty has increased in the same time as much as the world production by inhabitant ,that exceeds the vital needs though 850 millions of human beings suffer from malnutrition

The gap between the rich and the poor is increasing .It is breathtaking.

When the money flow from the south to the North is greater than when it goes from the financially rich countries to the poor, the world citizens must consider what is called the "Third world countries debt"

Establishing a world organization dealing with the environment is an urgent necessity. But the 2 world summits concerning the threats on the environment led to timid resolutions that the most polluting countries refuse to apply. Also a world cooperation will be necessary in regards of the exhaustion of non renewable energies . But nothing has been done. Why ?

A financial dictatorship exists in the world because international relations are not based on cooperation but on competition in a wild race to the profitable investments

The world citizens aware that world governance principles have to be based on real democracy must reflect together on the ways to establish world democracy especially concerning finances and economy .And even if this project will lead to (the substitution of the actual debt money in a money whose only function would be for its buying power in order not to allow anymore "to make money with money".

Biography summary:

Retired Gynecologist. World Citizen general secretary .Acting ASCOP Administrator .Vice president of the WMGD steering committee. Honorary adviser for World Unity and Peace Education Department (WUPED)in Lucknow (India).Member of the administrative council for the world Citizen association of Australia .Member of the executive and founding committee of Global Citizens for Peace in Melbourne Australia

Why I am a candidate to the People's Congress?

- Because it is the only world organisation of representatives of the planet without distinction of race, ethnical group, religion or political party that is democratically elected by universal vote
- Because this delegates assembly will remain working until a sovereign supra national world authority, eventually merging with it will replace it
- Because I believe that it is possible and necessary to install step by step a new system of world governance in parallel with the old one.

It is generally how things work, history is its witness. Two systems can coexist for a period of time and while the old one is still functional, the new one can be put in place

We are for the moment in this period and we, the delegates of the people's Congress are asked to achieve this temporary parallel function.

The national mode of governance by man and women who believe that their role is to insure supremacy and victory of one national group without regard for the welfare and survival of the other nations is becoming unacceptable.

This selfish attitude generates competition and suffering, war and death

In the near future without resolution of conflicts, humanity will destroy the planet

When I become delegate to the People's Congress

I want to inform, make people understand, explain to everybody, civil society and governments what we could build and accomplish if we would act globally and together

When I become a delegate to the People's Congress:

I want to promote peace and demonstrate that another way of living is possible if it is the expression of the interest and respect of each other

When I become a delegate to the People's Congress:

I want to make an inventory of the problems that are surrounding us and find the right solutions favourable to everybody and consider the others not like a competitor or an enemy but as a co worker achieving the difficult task of reorganising and restoring the planet

When I become a delegate to the People's Congress:

I want to work at the creation of World Institutions in which representatives of the whole earth ,nationals or stateless citizens, democratically elected, will govern and protect our the inheritance earth that was given to us, with honesty, equity and regularity and with the respect of diversity and of every one's human or not human rights

Heloisa PRIMAVERA

I

Address : Florida (Argentina)
@ : heloisa(alliance21.org)

Biography

Brazilian born and living in Argentina since the late sixties, I was formerly trained as a biologist and neuro-physiologist at the University of Sao Paulo and University of Paris. Trying to merge my professional life and social activism, I did a Master Degree in Social Sciences writing a dissertation on "Peronism and social change", with the direction of Professor Darcy Ribeiro who opened my mind to the Great Latin American Mother Nation. Since the '80s, I was trained in the epistemological approach known as linguistic constructivism by the creators of the School of Santiago: Humberto Maturana, Francisco Varela and Fernando Flores. In my professional career, during the last twenty years I've been working in the domain of organization design, conflict resolution and monitoring and evaluation of social programs, for private and public organizations, such as local and national governments, UNDP, IDB and Latin America Economic Commission, among others.

Coordinator and Professor at the Master Degree in Public Administration at the School of Economics of the University of Buenos Aires, I am also a candidate to the Ph D, with a research on Complimentary currencies and social economy in Argentina: contribution from constructivism".

Engaged with the promotion of barter clubs with social currency in Latin America since 1996, I was responsible for the launching of the workshop on Social Money from the WSES (Workgroup on Solidarity based Socio-economy) at the Alliance for a responsible, plural and united world, since 2000. With Philippe Amouroux, Laurent Fraisse, Marcos Arruda and Yoko Kitazawa, I integrate the Global Animation Team of the WSES, which manages currently 13 workshops. I am particularly involved with the process of launching a new transversal workshop on Integrated Development Projects and Strategies of Collective Intelligence building. In 1999, together with members from eight countries of the region, I was a co-founder of the Latin American Network of Solidarity based Socio-economy - RedLASES. One of its main activities is the so called COLIBRI Project, which aims at training and networking 1500 promoters of Integrated and Sustainable Development in Latin America, co-funded by FPH (Charles Léopold Mayer Foundation for Human Progress), Switzerland, Foundation for Quality and Participation and the Laboratory for Social Innovation, Argentina.

Dauji GUPTA

J

Born in 1940
World Citizen Card number :24.773

Address : Lucknow (India)
@ : daujigupta@hotmail.com

Biography

He was born in a prosperous and illustrious family in Lucknow (India). His late father Sri Gopalji was a staunch Gandhian and freedom fighter

Dr Dauji Gupta studied commerce and law at the University of Lucknow and later went to Vermont University (USA)

Elected Major of Lucknow for the first time In 1971 and for the third time in 1989 for a five year term .He represented India at the World Mayor's Conference (WMC) in Hawai in 1971 and was elected Vice-President of WMC

All his life, Dr Dauji was associated with a large number of social, cultural and academic institutions of national and international reputation

He was a leader of India's ruling party, the Indian National Congress and a member of the Parliamentary Board of Uttar Pradesh.

He has attended several training session with IEM (Institute of "mundialist" studies under the People's Congress) and participated in numerous conferences and meeting organised by ASCOP (Consultative Assembly to the People's Congress)

Deeply impressed by the Gandhian outlook, influenced by the compassion and rational world view of Buddha and inspired by the relentless crusade of Baba Saheb Ambedkar against the scourge of untouchability and the dehumanising effects of the cast system

Dr Dauji instinctively got himself involved in the challenging cause of emancipation of Dalits and Backwards Classes for their

servitude through his literary works and political activities.

Driven by this irresistible forces and deeply touched by the heart-rending agonies of the down-tread, Dr Gupta has taken upon himself the onerous task to accomplish the unfinished work left behind by Dr.Baba Saheb Ambedkar and has therefore started to write and publish a series of books to unmask the ulterior motives and nefarious designs of the perpetrators of the cast systems prevalent in India

Dr.Gupta speaks several languages and has done remarkable work for the propagation of Hindi, Urdu, Sanskrit and Pali throughout the world

He is a prolific poet and has published seven volumes of anthologies of his poems which have also been translated into English

Dr. Gupta is secular to the core of his heart

As a politician, he advocates non-violence and world citizenship leading to a world democratic government.

Declaration of intention

I have been associated with this great movement for more than 35 years.

I became a world citizen on January 1st 1972, enrolled by Mr Alexander Franke and endorsed by Mr Garry Davis as a Mayor of Lucknow, the capital of Uttar Pradesh ,the biggest state in India

I have also served as a state senator several times for a long period.

Having administrative and legislative experience, I feel I could serve the People's Congress to a considerable extent

I have also been attending the important events organised by IEM (Institute for " mondialists " studies) and the ASCOP (The Consultative Assembly of the People's Congress) for the past several years in different parts of Europe

Rasmus TENBERGEN

K

Born in 1971
World Citizen Card number :24784
Address : Alfter (Germany)
@ : tenbergen()world-democracy.org

Biography

Dr. Rasmus Tenbergen is Executive Director of the Institute for Leadership Development (www.ifld.de) and of the World Parliament Experiment (www.world-parliament.org). He studied political science and public administration at the Free University of Berlin and at Harvard University concentrating on Negotiation analysis and International relations. From 1996-1997, he was co-opted by former Chancellor Helmut Kohl to the national board of the governing party (CDU) in Germany. Since 2000, he has been lecturer in negotiation and leadership development at the Universities of Bonn and Erfurt.

Declaration of intention

During the discussion on the World Citizen E-mail list I was invited to add my name on the list of candidates for the Peoples Congress. I am glad to do that because I see a high potential in the People's Congress: in my opinion, it can serve as a "Provisional World Parliament from below" and that is my favorite way how a World Parliament should be created. I think it is a very good approach if registered world citizens give other world

citizens a mandate to represent them, coordinate their efforts, and interact with the outside world. This is also the approach that I tried to implement in the project that I founded in 2000: The World Parliament Experiment (www.world-parliament.org), formerly: The Global Democracy Experiment (www.tgde.org), a provisional World Parliament on the Internet.

A second important aspect for me is the collaboration between different Global Democracy Initiatives. I am a co-initiator of coalition-building efforts since 2003 (for example: www.world-democracy.org) and here again I see potential for the People's Congress to help organize collaboration with legitimacy through elections based on the principle of one person, one vote. That does not mean that I think it should be the "one and only" umbrella organization, but it can certainly help to co-ordinate the different constructive initiatives.

If you are interested in more information, you can visit my website: www.rasmus-tenbergen.de. I am looking forward to working with you, be it in this or in any other context.

Founder, Managing Director, and Corporate Secretary, November 2004 - present. Work with a group of dedicated activists establishing a legal entity to house a variety of transnational projects of the global governance democratization movement including the establishment of transnational democracy foundations and a school and library. Manage all of the legal requirements ; Planning basic projects and fundraising strategies and drafting work plans, budgets, and related documents ; Establishing relationships with related civil society groups ; Commencing initial fundraising activities. Also act as a consultant to other civil society entities on governance issues.

Wereld Federalisten Beweging Nederland (WBFN) The Hague, The Netherlands.

Board of Directors Member, Assistant Treasurer, Chair of Communications May 2006 - present. Work Group Communications Development, June 2006 - present. Member and Assistant to the International Secretary,

February 2002 - present. Active with a long-standing transnational not-for profit organization promoting democracy, good governance, and human rights at the international level ; currently the Dutch Membership Organization of the World Federalist Movement. Have attended several International Council meetings and Congresses over the year. Active in many areas, but currently focusing on developing an outward Focused communications program in honor of the WFBN's upcoming sixtieth anniversary. This will be a broadly functional virtual resource center on the entire spectrum of the history of and current movement for world Democracy.

Declaration of intention

I am an international lawyer by trade. For the last several years I have been focusing exclusively on building a resource center and network for a sustainable worldwide movement for democratization of global governance. If elected to the Peoples Congress, I will utilize that position to further this work. Currently my primary focus is building a recognized communications center for the entire world democracy movement (e.g. webpage, bibliography, electronic chat room, calendar, etc.).

Diomaye SENE

N

Born en 1944
World Citizen card : 183.330
Address in Dakar (Senegal)
@ : sereres2005@yahoo.fr

Biography summary

After being a state employee (Army, Police and Taxes office)

Diomaye SENE now devotes himself to the preservation of local cultures and interethnic pacification

- President of the federation of the Serere cultural Association in Senegal
- Founding member of the cultural association of the Diolas Serrere
- Initiator member of cultural Senegalese convergences
- Founding member of the origins festival of Fatick

Declaration of intentions:

Our work will be with the help of the People's Congress to reunite the different West Africa ethnical groups in one unique population and to start a dialogue towards peace

The diversity of my own life makes me understand the different points of view that gives strength to cultural "mundialization " and to world democracy

We wish that a universal understanding will lead to the elaboration of a world constitution

We are all world citizens in a realistic and responsible spirit

I want my experience to be available to a world cultural understanding .I propose a progress contract for the welfare of human beings, nature, the success of hopes for all the human race in peace and solidarity ,tolerance and world democracy

Bernard CHUZEVILLE

Biography summary

I am from Lyon and worked almost always out of France, as a water specialist (company employee or self employed)

Expatriate for a long time, I lived in many different countries .My engagements at the family professional, political, social and spiritual level are global and hardly dissociable because they are deeply " mundialist " and humanistic.

Declaration of intention

While people of my generation, who are born in the middle of the last century, are getting ready to retire, I feel the deep need to give to my professional activity less space without abandoning it completely.

My status of self employment allows me more freedom of decision without being submitted to the diktat of the economical world obsessed with the absurd and unbearable running forward.

Time has come to change my avocation as a water specialist to a more political level. However if during the last 30 years I could acquire competency and control part of the techniques and the know how of water management in numerous countries

in Europe, in Africa and in Asia, I am more and more convinced that water is not a commodity like any other. It is not a commodity but a universal element, in continuous movement that allows every human being and any alive organism to exist on this earth.

The 12 years that we spent as a family, in Mali, Cape Verde, Burkina Faso have forged our conscience on the irreplaceable value of water when it is scarce and difficult to access. But they have also built our strong "mundialist" vision that seems necessary to share largely with others

As an active member of several associations oriented towards water like:

Hydraulic without Borders, Live Water, Water is the Bridge, I participated in different actions at the local level . Without renouncing to all this engagements, I think that I should now participate more explicitly in activities at the world level

Having had the luck to be elected in a small fast growing town, I am conscious of the difficulties that local communities have to face .I want to encourage only qualitative development, not only in the developed countries but as well and above all in the other countries

Access for all to quality water in sufficient quantity is my priority even if it is sometimes very difficult.

Leo REBELLO

P

Born in 1950
World Citizen Card number :023.750

Address :Mumbai (India)
@ : drleorebello@gmail.com

Biography summary

Dr. Leo Rebello, N.D., Ph.D., D.Sc., F.F.Hom, MBA, is the Director of Natural Health Centre, Bombay. He has delivered over 10.000 lectures in 63 countries, including at WHO, UNAIDS, UNESCO, UNDP, UNEP, UN-HABITAT conferences, written 30 books and been interviewed by the world media.

- Connected with Citizens Registry from 1992.
- President of World Constitution and Parliament Association since 2000.
- President of 4M : *Mouvement Mondial des Militants Mondialistes.*
- Editorial Board Member of International Teacher.
- Vice President of International Association of Educators for World Peace
- World Peace Ambassador Award Winner / January 2004

Declaration of intention summary

Since I believe in World Parliament as against Neo Con' idea of One World, and have been consistently espousing the cause, I would like to be elected to Peoples Congress and work to realize this long-cherished dream.

Biography summary:

Registered World Citizen since 1989, member of ACAT, ATTAC, Pax Christi, Artisan of the world, member for life of Esperanto-France International, local and regional member of Esperanto, secretary of Europe-Democracy-Esperanto-North-West.

Declaration of intentions:

- Open as much as possible the debate on the political aspect of languages teaching in the world, keeping in mind that a common world language is indispensable for the establishment of a world governance able to be understood by everybody
- Promote the creation of an environment world authority that will help manage the limits of our planetary resources

- Organize a world reflection on our human purpose in order to better understand that some realities are overtaking us.
- Make possible our countries disarmament
- Facilitate inter religious dialogue and philosophical exchanges
- Guarantee basic food supply for everybody.
- Sensitize all the citizens to the procreation problems because planetary limits call for a population decrease
- Defend human rights
- Increase medical care for the world population
- Develop independence of information networks against economical and political pressure .

Yves ANGELLOZ

S

Born in 1945
World Citizen card : 171876
Lives in Bellegarde sur Valserine (01 France)
@ : angeloz@club-internet.fr

Biography Summary:

Swiss and French national. World Citizen since 1979. Founder of the World Peace Games. Writer, composer and musician

In 1983 he founded the first World Peace Games that were organized in many countries .The last one in Dubai brought together 28.000 participants from 75 countries .

Declaration of intentions:

- **Launch a big competition of ideas and reflections: *How to organize the world of to morrow ?***

Call on all the NGOS ,all the thinkers and actors of the beginning of this century ,founders and presidents of humanitarian associations ,members of reflection clubs, Nobel prizes, artists writers, scientists, poets, journalists and sports men. All inspired by a global deep understanding of the common good , ready to support , collaborate and participate in a big competition of ideas and reflections on a new organizational model of the planet open to all the women and men of the planet and called :*The organized world*

As suggestion and reflection dynamics, the participants will be asked to plan the establishment of a People's Assembly that will represent beside the United Nations –world Senate- the chamber of world deputies

Even if to day ,on the international scene, a right for the states to speak up about the problems that face the entire humanity and that exceed nations competency exist there are no such institutions that allow the people of the world to be directly and democratically represented on the international scene

- **Support Esperanto as a mean of international communication**

A concrete experiment could be proposed during the World Peace Games .10 People from different countries and languages able to participate to the next World peace Games could during the months preceding the games learn Esperanto and during the event prove that they can communicate with each other

- **Welcome at "La Gauthière " the People's Congress headquarters:**

La Gauthière, International center for the World Peace Games could become also the People's Congress.

Biography summary

<http://uuhome.de/global/english/index.html#pers>

Declaration of intention

The main idea of my candidacy is that development and overcoming of the poverty of indigenous people, the nations and of the world only will be possible if the countries and humanity develop a cultural and human identity, a process which depends on a general improvement of the situation of the indigenous people, on the re-establishment of self-esteem and consequently of self-confidence. To make this process come real an organization and centralization of indigenous people and of all people who resist globalization / heteronomy inevitably is necessary to safeguard a formal, organic and independent participation in the instruments of democracy, of any nation state and beyond any national borders. The first step towards the evolution of such a strategy is to regain a minimum of indigenous and - beyond of any ideology - human consciousness which could serve as scientific, practical and political support for the indigenous people as well as to all resisting people.

Today's corporate globalization with its racism of the white and rich man against a humanity in ever growing misery is a mere consequence of the anterior global and mental colorizations of indigenous people since thousands of years. Any of today's racisms is based upon this reality which within all patriarchal / one-directional / vertical systems violently functions in a normative way.

It needs a re-orientation towards the fundamental "being born into" a human diversity. It needs the acknowledgement of the wisdom and resistance of indigenous people. It needs a common striving, re-united and international towards a definite emancipation of humanity: the development of a global and peaceful consciousness.

This really would be a new historical project, liberating beyond any prior concepts and in full contradiction to any ideological project. It would be a human project beyond any ideology. A project which only serves the satisfaction of the challenges of the instantaneous reality of each living moment at each level of global society / of life.
